## **DETAILED ACTION**

### ***Specification***

1. The disclosure is objected to because of the following informalities: On page 15, line 26, "castor oil" is misspelled. On page 16, line 1, "monopalmitate" is misspelled. This objection has been made on 4/11/08 already, however it did not result in a correction.

Appropriate correction is required.

2. The amendments filed 2/27/08 and 5/28/08 are objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "instead of the anionic emulsifier having formula (2)", inserted page 17, line 20 and page 4, line 20.

3. There is not even a hint in the original specification that the condensate does not have the composition of formula (2).

4. Applicants' explanation for the reasons for the amendments is noted; however the explanation is not sufficient reason to withdraw the objection. An amendment to correct an obvious error does not constitute new matter where one skilled in the art would not only recognize the existence of an error in the specification, but also the appropriate correction. In re Odd, 443 F.2d 1200, 170 USPQ 268 (CCPA 1971). [See MPEP 2163.07]. In this case neither the Chinese Search Report nor the International

Search Report nor the examiner recognized either the error or the appropriate correction.

Applicant is required to cancel the new matter in the reply to this Office Action.

***Allowable Subject Matter***
